Combination arrester V25 3-pole 280 V with acoustic signalling

Item no. 5097185

Combination arrester consisting of lightning current and surge arrester type 1+2

- Complete unit consisting of upper part and base, pre-mounted and ready for connection
- Suitable for TN network systems
- With audible signalling for function monitoring, signal tone can be turned off with 24 h repeat
- Plug-in arrester with dynamic cut-off unit
- Visual function display
- Voltage protection level < 900 V
- Encapsulated, non-extinguishing zinc oxide varistor arrester for use in standard distributor housings
- Labelled connections

Application example: Building with open-wire power supply or for setting up lightning protection equipotential bonding in residential buildings.
